ミュラー・リヤー錯視に関する検証

A Verification of the Müller-Lyer illusion

林川 美由樹（長崎大学経済学部）

Miyuki Hayashikawa (Faculty of Economics, Nagasaki University)

### **Abstract**

The Müller-Lyer illusion is one of the famous phenomena in psychology area but the reason of it is not still specified yet. There are three following theories that explain reasons of the Müller-Lyer illusion. (1) The perspective theory by Gregory, (2) the conflicting clues theory by Day, R.H. and (3) the confusion theory by Sekuler, R., & Erlebach, A.. This paper is a record of an experiment to verify (1) the perspective theory.
